
Leisure SecuriBox

The Ritherdon Leisure SecuriBox is designed for fitting in caravans, motor homes and leisure craft as safe storage for cameras, passports and various other items.

It should be positioned where it is not readily visible, such as in a cupboard or locker.

The SecuriBox is easily and securely fitted to the floor or any other structural item. It is manufactured from Zintec with a fully welded construction and attractively finished in beige epoxy powder paint with blue screen printing. The fitting of a security lock with 2000 key variants completes the SecuriBox design.

Installation is easily within DIY capabilities as the SecuriBox is supplied with reinforcing plate and all the fixings that are required.
