## Ritherdon Stewards SecuriBox

---

The Ritherdon Stewards SecuriBox is intended for use where security and confidentiality are placed at a premium, and has been designed specifically for the storage of match day stewards' folders.

The SecuriBox is of fully welded steel construction and has a waterproof seal around the door. It is powder coated for added durability.

The SecuriBox can be customised to your own requirements with regard to size, paint colour and screen-printing.

The radial pin tumbler lock has 2000 variations and has two keys. The key is held captive in the lock when the door is open to ensure that they are not taken by mistake.

The unit is easily and securely fixed to a wall surface or worktop.

The SecuriBox has been supplied in a large quantity to a premier league football club.
